SeQuent receives CEP approval for Diclazuril API

Mumbai, January 28, 2021

Sequent announced that it has received ‘Certificate of Suitability’ (CEP) for its generic active pharmaceutical ingredient (API) Diclazuril in the EU.

Diclazuril is an antiprotozoal drug and is a preferred drug of choice for treating coccidiosis in livestock due to zero-day withdrawal period. It is also used in horses to treat equine protozoal myeloencephalitis caused by *Sarcocystis neurona*.

Sequent/Alivira is the second company in the world to receive approval for Diclazuril from the European Directorate for the Quality of Medicines (EDQM). The product was also recently commercialised in the US with supplies to the innovator.

This is Alivira's 11th CEP approval from the EDQM. Further, the company also has 21 filings for veterinary APIs in the US, making it the largest portfolio for the regulated markets in the animal health Industry.

Diclazuril is manufactured at Alivira's Vizag facility, the only US FDA approved veterinary API site in India.

About SeQuent Scientific Limited

SeQuent Scientific Limited (BSE-512529, NSE-SEQUENT) is India’s largest and amongst the ‘Top 20’ global animal health companies with annual revenues of ~ \$ 200 million. With 8 manufacturing facilities across Europe, Turkey, Brazil & India; over 2/3rd revenues of the company come from regulated markets. Backed by global investment firm ‘The Carlyle Group’ as promoter, it’s plant at Vizag is the only USFDA approved veterinary APIs facility in India.
